Professional Summary

MERN Stack Developer with 1+ Years of hands-on experience building full-stack web applications. Experienced in developing responsive React interfaces, REST APIs with Node.js and Express.js, MongoDB database solutions, authentication systems, payment integrations, image uploads, and modern UI animations. Passionate about clean UI design, problem solving, learning new technologies, and building scalable, user-friendly applications.

Technical Skills

Frontend	React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Responsive UI, Framer Motion / Motion
Backend	Node.js, Express.js, REST APIs, JWT Authentication, bcrypt, Nodemailer
Database	MongoDB, Mongoose, Schema Design
Payments	Stripe, Razorpay
Cloud / Media	Cloudinary, Multer
Libraries / Tools	Axios, validator, Git, GitHub, Postman, Thunder Client, Visual Studio Code
Development	Full-Stack Web Development, API Development, Authentication, Debugging, UI Design, OOP

Experience

MERN Stack Developer *10 Months Experience*

- Developed responsive full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Built and integrated REST APIs for authentication, products, orders, users, and application data.
- Implemented JWT-based authentication and bcrypt password hashing for secure user access.
- Integrated payment systems including Stripe and Razorpay.
- Implemented image upload workflows using Multer and Cloudinary.
- Worked with Tailwind CSS and modern motion-based UI interactions to create responsive interfaces.
- Used Git, GitHub, Postman, Thunder Client, and VS Code throughout development and debugging.

Flutter Developer *2+ Months Experience*

- Developed Mobile application using flutter and dart

Projects

FOREVER — Full-Stack E-Commerce Platform 2025

- Built a full-stack clothing e-commerce platform with customer and admin functionality.
- Implemented JWT authentication, role-based access, bcrypt password hashing, and OTP verification with Nodemailer.
- Added product browsing, cart management, ordering, order tracking, cancellation, and return workflows.
- Integrated Stripe, Razorpay, and Cash on Delivery payment options.
- Built an admin dashboard for product, order, and user management.
- Implemented image uploads using Multer and Cloudinary.
- **Technologies:** React, Node.js, Express.js, MongoDB, Tailwind CSS, JavaScript, JWT, Stripe, Razorpay, Multer, bcrypt, Axios, Cloudinary, validator, Nodemailer.
- Live Frontend | Admin Panel | GitHub

NOTES — MERN Notes Application 2026

- Developed a full-stack notes application using the MERN stack.
- Implemented JWT-based authentication and protected application features.
- Built a responsive interface for creating and managing notes.
- **Technologies:** MongoDB, Express.js, React.js, Node.js, JWT, JavaScript.
- Live Website

PERSONAL PORTFOLIO WEBSITE 2026

- Designed and developed a modern black-themed personal portfolio showcasing skills and projects.

- Built interactive sections with responsive layouts and motion-based UI effects.
- Used React, JSX, Tailwind CSS, and Motion / Framer Motion for animated interactions.
- Live Portfolio

NETFLIX CLONE — TMDB API 2025

- Built a Netflix-inspired movie browsing interface using React.js and the TMDB API.
- Added category-based movie listings and trailer playback using React-Youtube.
- **Technologies:** React.js, JavaScript, TMDB API, HTML, CSS, React-Youtube.

Mini Projects

Calculator — Built a JavaScript calculator with calculation and clear functionality.
Weather Dashboard — Built a weather dashboard using JavaScript and the OpenWeatherMap API.

Education

Secondary Education Ongoing
Currently pursuing Class 8.
Brototype 2025-2026
Finished MERN stack course
